

# Project Compliance Form

February 4, 2018

1. Will the research or evaluation components of your project involve the participation of human subjects, e.g. questionnaires, surveys, interviews, software testing?

No

2. Will your project report or any database you construct include information relating to identifiable living individuals?

No

3. If your application is web-facing, will it store cookies on the end-user's computer?

No

4. Will your application and/or report include any diagrams, figures, tables, illustrations, program code or any other type of content which was not originated by you?

Yes, programming libraries such as Keras or Tensorflow, which are freely available to use and are open source.

**Keras** - <https://github.com/keras-team/keras/blob/master/LICENSE>

**Tensorflow** - <https://github.com/tensorflow/tensorflow/blob/master/LICENSE>
